

STONEPLACING

What is StonePlacing?

- **Stone Placing** is a completely **free on-line course** that aims to increase the capacity of workers in laying natural stone.
- **Improve qualification and employability** by implementing a common European curriculum with the support of **ICT based tools**.
- Stone Placing wants to **ensure** the **quality** of the final work **and safety** of workers.

StonePlacing's Method

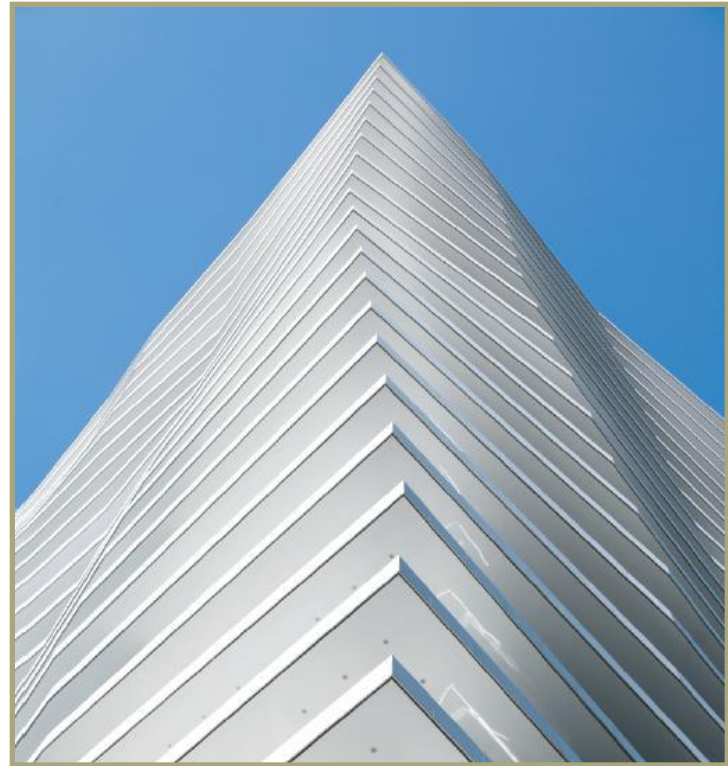

- There are **two types of contents**:
 - Curriculum
 - Resource Center

- Users can **freely manage the time** and schedule dedicated to the course.

Curriculum

- **Norms, procedures and methods** for placing the different stonemasonry products.
- Adapted to the **transversal needs** of stone industry **across Europe**.
- Available in **PDF**.

Resource center

- **Practical demonstrations** on topics related to the placement of the stone elements.
- Made through **multimedia material.**
(Over 20 animations)
- Content divided in **three working areas:**

Target users

- Young people following courses in **VET**.
- **Workers in continuous training and companies.**
- Stone **Technicians.**

Who has created StonePlacing?

- Developed by partners from **German, Spain, France, Sweden, Croatia and Romania.**
- Funded by the **European Union** within the “Leonardo Da Vinci” program.

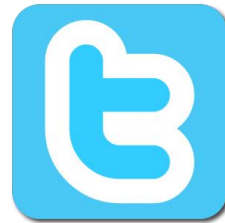

This project has been funded with support from the European Commission. This publication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.
